

10 May 2022

Dear Jury of King Salman Global Academy Prize for Arabic Language,

It gives me immense pleasure to recommend Prof. Fawaz Shukhier Al-Anzi for the King Salman Global Academy Prize for Arabic Language in appreciation of his efforts and achievements in the field of Arabic language Computational Linguistics. Prof. Fawaz Al-Anzi has contributed to several research areas of Computational Linguistics in service of Arabic language, and it is with an honor that I write this letter in recognition to his impact and accomplishments to the field. His localization of this field of research includes the analysis and synthesis of Arabic language text and speech. I believe that this localization qualifies him as an excellent candidate for the King Salman Global Academy Prize for Arabic Language as he represents the values that prize contemplates in its recipients. I am confident that he would be a worthy recipient of your prize.

If you have any questions please do not hesitate to contact me. I would be pleased to give you further information that you may require to make your decision.

Sincerely,

د. أسامة علي العمير
