

PRODUCT DESCRIPTION

Q-Test is a mobile based application that aims to evaluate users' knowledge about the Holy Quran, **Q-Test** combines 2 different languages; Arabic and English. The **Q-Test** has been divided into 4 different categories namely *Qur'an Science*, *Tajweed*, *Memorization* and finally *Tafseer*. Each of these categories has 3 different levels, Level 1 for beginners, Level 2 for intermediate and Level 3 for advanced.

- Download **Q-Test** from Google Play Store
- Create a user account

- **Q-Test** stores the questions in the database which is hosted in the cloud
- The application chose 10 random questions from the database related to the selected category.
- When the user passes level 1, the user will automatically be directed to level 2 followed by level 3.
- Since the databases are in the cloud, the developer can add more questions or modify the existing questions.

RESULTS & DISCUSSION

- Verity of questions in different levels in simple and modern way.
- The app is designed in a high quality that makes it easy to use.
- All questions are in multiple choices format.
- There is a limited time for each question.
- All scores will be saved at the end, and can refer to the score list later.
